Verő Mihály

About Me:

I consider myself a perfectionist, sociable, and ambitious person who always loves to see the fruits of my labor. When faced with obstacles, I persist to the end to solve them. During my high school and university years, I gained extensive experience in communication in both English and Hungarian, so collaborating and working with a team is not difficult for me. Nevertheless, I can also achieve excellent results on my own. Although I lack professional experience, I am convinced that my IT knowledge and quick learning ability will help me quickly adapt and achieve results in the industry. In my free time, I enjoy exercising, watching English-language or subtitled movies, series, or videos, and playing video games.

Experience:

November 2023 - January 2024 Boulevard Café and Lottery, Student Job
ASSISTANT Handling the cash register and serving customers, making coffee. Worked 6 hours per day.

June 2022 - August 2022, June 2023 - August 2023 Sóstó-Gyógyfürdők Szolgáltató és Fejlesztő Zrt. Pool Bar, Student Job

Education:

September 2021 - Present University of Debrecen, Faculty of Informatics - Computer Science I further developed my IT knowledge here and got acquainted with various programming languages such as Python, C++, C#, Java, and CSS. My thesis topic is 3D game development, for which I use Unity and C#.

September 2016 - May 2021 Zrínyi Ilona High School, Nyíregyháza During my high school years, I maintained excellent academic results and received certificates and scholarships for outstanding academic performance in my last two years. I started learning English here, and in 10th grade, I continued learning German. I participated

in mathematics and English competitions, achieving second and first places, respectively. I obtained my intermediate language exam and ECDL certification during high school. As a member of the student council, I represented my class from the 10th grade. In my final year, I received the "Best Boarder" award for my academic performance, behavior, diligence, and active participation in community life. I completed my high school diploma in intermediate English, Hungarian language and literature, history, IT, and advanced mathematics, achieving excellent results except for history, where I achieved a good result.

September 2008 - June 2016 Eötvös József Elementary School, Piricse During my elementary school years, I participated in numerous mathematics, history, literature, and spelling competitions, supporting my school's reputation. I studied German for 4 years in the upper grades. My teachers were always proud of my excellent results.

Language Skills:

English Intermediate/Conversational level

Other:

- ECDL certificate
- Certiport certificates:
  - Information Technology Specialist: Python
  - Unity Certified User: Programmer
- Achieved a 94% score on the C# test at Schönherz School Cooperative
- My GitHub account with all my projects: https://github.com/veromihaly
